Introduction

This is the second part of a larger project entitled *The Forgotten Greats*. In 2024, we organized a BIP dedicated to the symphonic compositions of Mario Castelnuovo-Tedesco. The research group is now focusing on the lesser-known repertoire of Nino Rota. Although he is primarily known for his film music, this project aims to explore and shed light on some of his unfairly neglected compositions.

Project Structure

The project includes:

- One online meeting
- Five days of intensive orchestra rehearsal sessions
- One final public concert
- One field trip to get to know the territory
