

The Gustav Mahler Privatuniversität für Musik (GMPU) warmly invites students to participate in the Erasmus+ Blended Intensive Programme (BIP) “music in motion”, taking place from **19–23 October 2026 in Klagenfurt**.

This international project focuses on elementary music-making and movement, highlighting the connecting power of music. The programme combines online preparation sessions with an intensive on-site week.

The content includes practical insights into different teaching settings such as early childhood music education, intergenerational formats, and inclusive group work. Artistically, participants will explore voice, body, instruments, improvisation, rhythm, dance, and interaction.

The programme also encourages reflection on pedagogical approaches and offers opportunities to observe and experience children’s music theatre in practice. Participants will gain practical experience in artistic and pedagogical approaches, expand their intercultural competences, and become part of an inspiring international network. 3 ECTS credits will be awarded.

We look forward to welcoming motivated students from across Europe!

Project Invitation – Erasmus+  
Blended Intensive Programme (BIP)

**music in  
motion**  
exploring creativity  
through  
sound and movement
